Disbursements

Disbursements are costs related to your transaction that are payable to third parties, such as Stamp Duty and Land Registration Fees. We handle the payment of the disbursements on your behalf.

Key stages

Under the individual areas above you will also find the typical stages involved in your transaction. Please see our [buying](#) and [selling](#) flow charts for further information.

How long will your transaction take?

The time it takes from taking your initial instructions to the completion of your sale or purchase will vary according to the type of transaction and the number of parties in a chain of transactions. The average process takes between six to eight weeks to a point of exchange. Thereafter, if all parties are ready to proceed to an exchange completion can be from one week later.

It can be quicker or slower, depending on the parties in the chain. For example, if you are a first time buyer, purchasing a new build property with a mortgage in principle, it could take four weeks to exchange. The completion date would typically be "on notice" which means that you would have to wait for the Builder to complete the construction of the property before a completion date is known.

However, if you are buying a leasehold property that requires an extension of the existing lease, this can take significantly longer, between 12 and 16 weeks. In such, a situation additional charges would apply.
